South Florida's fastest-growing companies honored at 2017 Fast 50 Awards

December 19, 2017

More than 275 people gathered Thursday night at the South Florida Business Journal's Fast 50 event at Jungle Island in Miami to celebrate the 50 fastest-growing companies in the tri-county area.

This event was sponsored by BankUnited, Comcast Business and Daszkal Bolton. Associate sponsors were Oasis Outsourcing and the Greater Miami Chamber of Commerce.

Last year marked the first time we opened this private event to the public, so that attendees could meet first hand and congratulate the business executives cleading the companies that are bullishly growing their revenue.

The private companies honored were ranked by percentage of revenue growth over the past two years, and ranked on two lists: those with more than $25 million in annual revenue and companies with less than $25 million in annual revenue. To be considered for the lists, companies must be based in South Florida and financial verification is required.
